

# ORDERING

All Baldwin product numbers have a minimum of seven (7) digits. The first four (4) digits indicate the product, e.g. 1040 is a 4" square corner Mortise Hinge. The next three (3) digits indicate the finish, e.g. 150 is Satin Nickel. Therefore, 1040.150 indicates a 4" square corner Mortise Hinge in Satin Nickel finish. In addition to the seven (7) base numbers, a suffix of from one (1) to four (4) digits or letters are sometimes used. These characters are placed to the right of the finish; e.g. 1040.150.I indicates (1) one individual 4" square corner Mortise Hinge, whereas 1040.150 indicates a pair of hinges.

## LIST OF SPECIFICATION/FUNCTION CODE SYMBOLS

- A. Decorative Hinge Tips**
- |      |          |      |             |
|------|----------|------|-------------|
